One spray does it all! Clean off the toughest stains with Orange power!

Orange oil works on grease and penetrates into tough stains. Target the grease and stain with this foam spray for optimal cleaning. One bottle for an all-round cleaning from the kitchen to the living room. This product is loved by professionals in broad range of industry from maintenance shops to restaurants.

Feature No. 1

Contains plenty of Orange oil
Clean off the toughest stains! Contains plenty of orange oil that penetrates and cleans off oil and grease. It cleans off the toughest grease and stains. Sprays in foam for easy target and little dripping. The foam firmly covers the stain.

Feature No. 2

One bottle for a complete cleaning!
Dilute by adding 200 times more water for an economical use! You can dilute the detergent for lighter stains for an economical use. Thin it with 50 times more water for greased electronics. Thin it with 200 times more water for lighter stains like tobacco resin and dirt. It is economical because you can dilute it.

Feature No. 3

Loved by professionals! Contains natural ingredients for skin-friendly cleaning.
A maintenance shop uses and loves this product because it cleans off machine oil stains without irritating the hands. The secret lies in the natural ingredients, orange oil and natural palm oil. It cleans off stains and grease, yet gentle on hands.

Feature No. 4

Deodorize and sterilize at the same time
It cleans, deodorizes and sterilizes all at once, so you can use it on grills and toilets, where you might be concerned about odor or germs.
*Not all odor or bacteria are eliminated.

Loved by professionals

We have been using Super Orange on grease and dust that are generated when manufacturing machinery. It cleans very well, and rinses off great. It still cleans great even when thinned 20 times, so it is very economical too. We manufacture machinery for food production, so we had searched for non-chemical, plant-based cleaner and encountered Super Orange, which we use ever since. (Mr. Takagaki, CEO, Takagaki Co., Ltd. (Manufacturer of machinery that processes dough for major breadmaking companies and milling plants))
